The Fund's share price will fluctuate with changes in the market value of the Fund's portfolio securities. Stocks are subject to market, economic and business risks that cause their prices to fluctuate. When you sell Fund shares, they may be worth less than what you paid for them. Consequently, you can lose money by investing in the Fund.

Investors should carefully consider the investment objectives, risks, charges, and expenses of the Fund before investing. The prospectus, which contains more complete information about these and other matters, should be read carefully before investing. GABELLI FOCUSED GROWTH & INCOME FUND

Quarter End – March 31, 2023

PORTFOLIO UPDATE

While most equity benchmarks were positive in the first quarter, it was a challenging time for investors. An increasingly hawkish Fed, and a banking crisis that caused the second & third-largest bank failures in U.S. history, contributed to significant volatility. We believe the current market environment will benefit firms with consistently growing cash flows, and that our portfolio is well positioned to earn above market total returns. The current gross dividend yield on the portfolio is approaching 7%, combined with a widening discount to Private Market Values.

Enterprise Products Partners (NYSE: EPD) was the largest contributor to performance in the first quarter. The leading North American provider of midstream energy services offers attractive upside given the potential for accretive projects, conversion to a C-Corp from a partnership structure, and an increase in the dividend.

Importantly, Morningstar recognized the fund's total return investment strategy and placed us in the appropriate category, Allocation – 85%+ equity. As a result, the Fund has now been awarded 5 stars for the 3-year period ending March 31.

Returns represent past performance and do not guarantee future results. Due to market volatility, current performance may be lower or higher than the performance data quoted. Investment return and principal value will fluctuate so, upon redemption, shares may be worth more or less than their original cost. To obtain the most recent month end performance information and a prospectus, please call 800-GABELLI or visit www.gabelli.com.

*The inception date of the Fund was December 31, 2002. The Class AAA Shares' net asset values are used to calculate performance for the periods prior to the issuance of Class A Shares and Class C Shares on December 31, 2003 and Class I Shares on January 11, 2008. The actual performance for Class A and Class C Shares would have been lower and Class I Shares higher due to the different expenses associated with those classes of shares. Performance for periods less than one year is not annualized. Class A Shares (load adjusted) includes the effect of the maximum 5.75% sales charge at the beginning of the period. Class C Shares (load adjusted) includes the effect of the applicable 1% contingent deferred sales charge for shares redeemed up to and including the last day of the twelfth month after purchase. The Adviser reimbursed certain expenses to limit the expense ratio during the period from inception. Had such limitation not been in place, returns would have been lower. The fund imposes a 2% redemption fee on shares sold or exchanged in seven days or less after the date of purchase.

The Fund is classified as a "non-diversified" mutual fund, which means that a greater proportion of its assets may be invested in the securities of a single issuer than a "diversified" mutual fund. As a non-diversified mutual fund, more of the Fund's assets may be focused in the common stocks of a small number of issuers, which may make the value of the Fund's shares more sensitive to changes in the market value of a single issuer or industry than shares of a diversified mutual fund. Not FDIC Insured. Not Bank Guaranteed. May Lose Value.

The Gabelli Mutual Funds are distributed by G.Distributors, LLC., a registered broker-dealer and member of FINRA.
